Brooklyn, NY 11206 | kumkowskimateusz2002@gmail.com | (917) 861-3826  
Linked In: [www.linkedin.com/in/kumkowskimateusz](https://www.linkedin.com/in/kumkowskimateusz)

## EDUCATION

University at Buffalo, Buffalo, NY

May 2024

Bachelor of Science in Computer Science; GPA: 3.6

Relevant Coursework: Algorithms and Complexity, Computer Organization, Data Structures, Object Oriented Programming, Systems Programming, Intro to Machine Learning, Information Retrieval, Blockchain, CSE 442.

## PROFESSIONAL EXPERIENCE & LEADERSHIP

Revature, New York, NY

June 2024 - January 2025

Fullstack Java Developer

- Developed skills in Java, SQL, Restful API construction, Spring, React, AWS, and Server Automation.
- Implemented Project work consisting of Spring Backend and React Frontend with test driven development.
- Completed 112 Coding Activities
- Leveraged APIs, frameworks, and libraries to solve various problem sets.
- Showcased understanding of numerous topics through eighteen vigorous evaluations.

Saks Off Fifth, New York, NY

June 2022 - August 2023

Customer Service Associate

- Spent summers processing transactions, returns, and exchanges accurately using unspecified software.
- Consistently met or exceeded performance targets including response time, resolution rate, and customer feedback scores.
- Maintained a customer satisfaction rating of 92% by actively listening, identifying needs, and providing timely solutions.
- Collaborated with cross-functional teams to streamline communication and improve customer service workflows.

## PROJECTS

Item Management Application

December 2024

*Objective: Create a website with admin and user interface that allows users to interact with an item*

- Develop CRUD operations using spring boot that frontend services may request.
- Maintain cookies of the website using Spring Boot so user login sessions are preserved.
- Organize the H2 database following normalization formats and create operations to interact with the database.
- Test and Debug backend using Postman.
- Develop admin frontend UI using react.

RevStay Technology Project

December 2024 - January 2025

*Objective: Create a hotel management website with hotel owner and user interfaces, allowing users to reserve spots in a hotel.*

- Develop React templates and components to ensure scalability, easy modification, and reusability.
- Implemented User and Admin Login/Registration functionality and UI using Spring boot and React.
- Connected frontend and backend using Axios.
- Ensure password security by encrypting and salting passwords before placing them into the database.
- Analyze booking data of all hotels and provide a chart using chart.js so that users may see the most active times of the year.
- Store frontend, database, and backend in AWS using its various services like S3 and EC2.

## SKILLS

**Computer Skills:** Visual Studio Code, Visual Studio, IntelliJ, Trello, Github, Google Cloud Platform, Amazon Web Services, Prompt Engineering.

**Programming Skills:** CSS, HTML, JavaScript, Java, Python, React, Solidity, Jenkins, Kafka, Spring, Spring Boot
